

# Etheree

## Definition

Created about twenty years ago by an Arkansas poet named Etheree Taylor Armstrong, this titled form, the Etheree, consists of ten lines of unmetred and unrhymed verse, the first line having one syllable, each succeeding line adding a syllable, with the total syllable count being fifty-five. **Shadow Poetry** further describes this, and Google will lead to many good sites and examples.

## Etheree Poem

### Night Visions Written by: [Carolyn Devonshire](#)

Ghosts  
Enter  
Quietly  
Loneliness adds  
Form to night visions  
Curtains ruffled by wind  
Take shapes of apparitions  
Moonbeams casting eerie shadows  
Oak branches shivering in the breeze  
Turn away, lie on your chest, expel ghosts

## Reverse Etheree Poem

### Tomorrow's Grace Written by: [Andrea Dietrich](#)

When children are taught never to forget  
conflicts' lessons, to love all humans,  
to honor those through history  
who, selfless, wrought liberty. . .  
Then will spangled dreams of  
world peace be fulfilled  
as God imparts  
tomorrow's  
grace on  
all.

### Double Etheree Poem [Touch Me, Dream Weaver](#) Written by: [binibining P.iNk](#)

.  
..  
...  
Dream  
Weaver,  
Where are you?  
Caress my hair,  
drift through my mind's eye...  
Let your fingers dig deep,  
unearth the day's toils, plant seeds  
that give birth to joyful tendrils  
Use these, weave me rivered reveries...  
Stay by my side 'til Sun kisses my cheeks

Blanket me in your kaleidoscope warmth  
let silken threads of dreams tickle me,  
so smiles meet my lips as I sleep  
Unravel my wrinkled mind,  
smoothen it, breathe new life  
with your magic touch  
Let me feel you,  
Dream Weaver
